COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Applicant concurs with the Examiner's REASONS FOR ALLOWANCE, but in addition submits that the prior art of record fails to teach the steps of remote serological cross-matching of each patient specimen and segment to determine their compatibility with one another prior to entering the results in a database and verifying the compatibility from the results entered by comparing the antigens and antibodies to determine whether each is present in the segment and specimen tested.

If any issues remain to be resolved, it is requested that the Examiner contact Attorney for Applicant at the telephone number listed below.

Respectfully submitted,
